

Sadia Ghafoor

Software Engineer

Detail-oriented and highly motivated SQA Engineer with **1 year of hands-on experience** in software quality assurance and a strong academic foundation in Computer Science. Skilled in **functional, regression, and UI testing** with practical exposure to test case design, defect tracking, and QA documentation. Proficient in tools such as **Jira, Postman, and Selenium** (basic level), with a solid understanding of **SDLC, STLC, and Agile methodologies**. Adept at identifying bugs, improving product quality, and collaborating effectively with cross-functional teams. Recently graduated in Computer Science and eager to contribute to high-quality, user-focused software solutions.

Bachelors in Computer Science

UMT - University of Management and Technology

11/2021 - 07/2025

Lahore Pakistan

Courses

- Object Oriented Programming (OOP)
- Data Structures
- Design and Analysis of Algorithm
- Database Management (DB)
- Software Engineering

WORK EXPERIENCE

Software Quality Assurance Engineer

DinovaUX

02/2026 - 08/2026

Lahore

DinovaUX is a Lahore-based company delivering digital products and enterprise software solutions across learning, project management, monitoring, and organizational platforms.

Achievements/Tasks:

- **End-to-End QA:** Performed functional, regression, and UI testing across LMS, PHACT-PMO, Astrom, and Efficax-AI Munazam platforms
- **Test Case Development:** Designed and executed test cases for course workflows, task management, alerts, approvals, and RBAC
- **Defect Management:** Identified, documented, and tracked defects in Jira, collaborating with developers for timely resolution
- **Workflow & SLA Validation:** Verified escalations, SLA rules, notifications, dashboards, and permission matrices
- **API Testing:** Validated APIs and integrations using Postman to ensure reliable data flow between modules
- Participated in requirement reviews, sprint planning, and daily standups

Software Quality Assurance Engineer

Quick Stack Solutions

06/2022 - 12/2022

Faisalabad

QuickStack is a fast-growing startup focused on business growth consultancy and IT services.

Achievements/Tasks:

- **Test Case Development:** Created and executed test cases for web applications, ensuring comprehensive coverage of functional and non-functional requirements
- **Defect Management:** Identified, documented, and tracked defects, working closely with developers to resolve issues and improve product quality
- **Bug Triage:** Prioritized and categorized defects based on severity and impact
- **UI Testing:** Manually verified UI elements, ensuring alignment and adherence to design specifications
- **Regression Bug Hunting:** Manually searched for regression bugs in previously tested areas after new changes were implemented
- Implemented and managed Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC), streamlining workflows for efficiency
- Continuously identified gaps and improved testing methods and coverage
- Participated in requirement reviews, sprint planning, and daily standups

PROJECTS

- LMS (Learning Management System)** *(DinovaUX)*
- Online learning platform for course management, instructor training, learner enrollment, assessments, and certificates
 - Validated self-paced/live course flows and role-based access for admins, instructors, and learners
- PHACT-PMO** *(DinovaUX)*
- Project management system for tasks, entities, workflows, SLA rules, escalations, dashboards, and notifications
 - Verified role-based access and end-to-end workflow behavior across user types
- Astrom** *(DinovaUX)*
- Monitoring and automation platform for alerts, SOPs, and IPOM workflows
 - Validated AI-assisted automation through Live Agent and alert/SOP reliability
- Efficax-AI Munazam** *(DinovaUX)*
- Enterprise system for organizational obligations, task workflows, approvals, and notifications
 - Verified user roles, approval chains, and task routing across processes
- Foster Learner Management (Final Year Project)** *(10/2024 - 07/2025)*
- Implement personalized learning paths
 - Integrate AI for automated grading and feedback
 - Create a virtual classroom environment with real-time collaboration
- Research Paper on Overleaf** *(05/2023 - 08/2023)*
- Research paper on Cloud computing Blockchain transportation system
 - Explored how blockchain improves logistics through enhanced traceability, freight processes, and fraud reduction with transparent, immutable supply-chain records

CERTIFICATES

- Technical Writing Competition** *(06/2019 - 07/2019)*
Winner in technical writing competition at Punjab University
- Calligraphy** *(03/2022 - 03/2022)*
Runner-up in calligraphy national level competition at Daira FAST
- Women Volleyball** *(03/2022 - 03/2022)*
Winner in Women Volleyball at Daira in FAST University FSD
- OPA Fiesta** *(06/2023 - 08/2024)*
Senior Team Member at Office of Participant Affairs in UMT
